

I am a forth generation dairy farmer and farm in partnership with my wife and daughter. I started the Greyleys herd of pedigree Jerseys in 1968 and am currently milking 250 cows with 170 young stock. Our milk is sold to Longley Farm and we have a milk vending machine. I joined the Jersey cattle society and QMP in 1968 and subsequently became a board member for the Jersey Cattle Society and QMP. I have worked tirelessly with QMP to keep it going and ensure Gold TOP milk remained on the shelves of major retailers through the changes of Milk Marque and the QMP board. I believe Gold TOP is the flagship brand of Jersey and Guernsey milk producers. QMP have always represented the political and marketing interests of its members

David Shaw
QMP Board Member
